MARINE MEADOWS

June 2 1:00 – 2:00pm, Agawam Park

June 8 3:00 – 5:30pm, New Suffolk waterfront

Participants will weave eelgrass shoots (harvested from healthy donor meadows in local waters) into burlap planting discs. Once assembled, these discs will be planted by SCUBA certified CCE Marine Program staff in carefully selected restoration sites in our local estuaries. These newly created “marine meadows” will serve as important marine habitat for many species of finfish and shellfish. Registration is free, but required as space is limited. For more information on the Marine Meadows Program, or to register for these events, please contact Kimberly Barbour, Habitat Restoration Outreach Specialist at kp237@cornell.edu or (631) **852-8660**.
